Young Carers are:

Children and young people under the age of 18 who help to look after or support a member of their family due to:

- Physical or learning disability
- Mental illness
- Physical illness
- Drug or alcohol problems
- Chronically or terminally ill

The person the young carer looks after might be their mum, dad, brother, sister, grandparent or any other person close to their family. They may look after the person all by themselves or they may help someone else. Many young people don't even realise that they are a young carer.

Young Carers may...

- Cook
- Clean
- Do shopping
- Look after brothers or sisters
- Collect or give medication
- Keep someone company
- Washing/bathing
- Listen to worries

Many young people don't even realise that they are a young carer.

Every young carer's situation is different, it is not necessarily the amount of care undertaken but the impact that it has on a young person's life...

Sometimes... A young carer may experience difficulties as a result of their caring situation. They might find it difficult finding time to do things that other people their age do, like homework, go out with friends or enjoy themselves. They may feel:

- Tired
- 'Different'
- Lonely
- Angry
- Frustrated
- No-one understands
- Trapped
- Confused
